EXPERIENCE

CHIEF, Washington, DC — Senior Technical Manager

October 2016 - PRESENT

- Work with cross-functional teams including Design, Content Strategy, User Experience, Migration and Development, on website redesign projects for external clients including an intranet for a government agency, an advocacy group, a non-profit and an educational software company
- Consult on technical approach, functional and accessibility testing
- Partner with clients/stakeholders and documentation for Drupal and Wordpress sites
- Manage a mid-level technical manager through weekly one-on-ones, goal planning, and biannual reviews

General Assembly, Washington, DC — Product Management Lead Instructor

September 2015 - Present

- Product Management Lead Instructor
 - Teach students topics including User Experience, Product Lifecycle and Technical Management with examples of different ways to produce wireframes, identifying opportunities for a variety of user testing methods, and user personas
 - Review and provide feedback on student feature requirements and planning such as clarifying technical approach and business strategy, identifying user experience best practices, and vetting the feasibility of features
- Teaching Assistant for Front End Web Development
 - Review all student coding assignments with comments regarding improvements and best practices
 - Maintain weekly office hours to reinforce material taught each week and provide further assistance to students

SmartBrief, Washington, DC — *Technical Project Manager*

November 2015 - October 2016

- Manage all steps of the development process from requirements creation to deployment with internal and third-party development teams, including timeline management and stakeholder communication
- Projects included features for the website, advertising platform, and editorial systems using Drupal and iOS such as migration of original content from a Wordpress site to the main Drupal site
